PROFESSIONAL SUMMARY

Detail-oriented and results-driven BCA student with hands-on experience in Python development, Machine Learning, and full-stack Django applications. Skilled in building end-to-end ML deployment systems, REST-based web applications, and database-driven platforms. Strong foundation in data structures, OOP, model training, feature engineering, and version control. Seeking entry-level roles in Machine Learning, Data Analysis, or Python Development.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, SQL
- **Frameworks & Libraries:** Django, Scikit-learn, NumPy, Pandas, Matplotlib, Selenium
- **Machine Learning:** Regression Models, Feature Engineering, Data Cleaning, Model Evaluation, Cross Validation
- **Databases:** SQLite
- **Tools & Platforms:** Git, GitHub, VS Code, Google Colab
- **Concepts:** Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations, Authentication Systems, Session Management

PROJECTS

Property Price Prediction System (Machine Learning Deployment) *Python, Django, Scikit-learn, SQLite*

- Integrated 6 regression models including XGBoost, Random Forest, LGBM, Decision Tree, Linear Regression, and SVR.
- Implemented feature engineering with one-hot encoding for 150+ categorical features.
- Built dynamic forms supporting 70+ locations for real estate price estimation and designed secure authentication.

Full-Stack School Management Portal *Django, SQLite, HTML, CSS, JavaScript*

- Built a Django-based web portal with role-based access control and notice management with file uploads.
- Designed database schema managing 42 marks fields per student across 7 subjects with CSRF/XSS protection.

Kirana Store Retail POS System *Python, Django, SQLite, Matplotlib*

- Engineered a full-stack billing system with automated GST calculation and CRUD-based inventory management.
- Implemented data visualization using Matplotlib/NumPy and generated Excel reports using OpenPyXL.

INTERNSHIP EXPERIENCE

Machine Learning Intern — Ardent Computech Pvt Ltd *July 2025 – Sept 2025*

- Developed and tested ML models for predictive analysis; performed data cleaning and feature engineering.
- Applied regression/classification on structured datasets and evaluated models using performance metrics.

Python Developer Intern — CodSoft (Remote) *Sept 2024 – Oct 2024*

- Developed Python-based mini projects focusing on automation, logic building, and debugging.
- Used GitHub for version control and practiced documentation and code optimization techniques.

EDUCATION

Bachelor of Computer Applications (BCA) *2023 – Present*

B. P. Poddar Institute of Management and Technology

Higher Secondary (Commerce) — Muraripukur Govt. Sponsored H.S. School *2023 — 89.4%*

Madhyamik (10th Grade) — Muraripukur Govt. Sponsored H.S. School *2022 — 87.5%*

CERTIFICATIONS

- Oracle Certified AI Foundation Associate
- TCS iON Career Edge – Young Professional
- Certified in Information Technology and Application – AIYCSM
